AN EYE ON SUSTAINABILITY

BINDING SUSTAINABILITY STRATEGY

30 years ago, Geberit tabled an initial environmental strategy and began to implement specific measures. Over the years, this strategy was gradually developed into a comprehensive sustainability strategy that bundles together current and future projects, initiatives and activities. The sustainability strategy contains clear responsibilities with measurable objectives, derived measures and quantifiable key figures for effective monitoring.

Geberit takes economic, ecological and social aspects into account in its decision-making processes. The declared aim is to leave behind the smallest possible ecological footprint along the entire value chain, while treating suppliers and business partners with respect and fairness. Another important building block in the strategy is the education and further training of employees, as well as plumbers, sanitary engineers and architects.

ECO-DESIGN AS THE KEY TO SUSTAINABLE OPERATIONS

Environmentally friendly, resource-saving, durable products are extremely important at Geberit. This is why Geberit utilises eco-design and develops products consistently according to its principles. Seen across the entire life cycle – from obtaining the raw materials right through to disposal – each product must be better than its predecessor from an ecological perspective. Eco-design has been an integral part of all development processes since 2007 and has already been implemented in over 170 projects. This also incorporates current topics, standards, regulations and social developments.

DESIGNED WITH DURABILITY IN MIND

Thanks to their top-class materials and strict quality requirements, Geberit products have a service life spanning several decades. Furthermore, they are usually backwards-compatible and can be cleaned and maintained easily. A significant proportion of the Geberit product range also has a guaranteed spare parts availability of up to 25 years. We also ensure that as little packaging material is used as possible.

All of these aspects play a role in minimising the use of energy and resources, keeping the service life and useful life of products as high as possible, closing material cycles and constantly increasing the use of recycled materials.

PLASTIC AS A GUARANTEE OF QUALITY

In terms of plastic, the goal is the most resource-efficient and economical use of the material as possible in manufacturing high-quality products with a guaranteed long service life. In this way, plastic offers many benefits from a sustainability point of view.

During packaging, Geberit ensures that the products are comprehensively protected whilst simultaneously using as little packaging material as possible. We mostly use cardboard and dispense with expanded polystyrene and other plastics wherever feasible.

“FOR SEVERAL DECADES, SUSTAINABILITY HAS BEEN AN INTEGRAL PART OF GEBERIT’S CULTURE. OUR FOCUS HERE IS ON CONSISTENT IMPLEMENTATION ON AN ONGOING BASIS AND WITH MEASURABLE RESULTS.”

Christian Buhl, CEO

SELECTED KEY FIGURES

The Geberit sustainability strategy contains clear responsibilities with measurable objectives, derived measures and quantifiable key figures for effective monitoring. Two examples of these figures are eco-efficiency and CO₂ emissions.

ENVIRONMENTAL IMPACT 2015 – 2020

■ Environmental impact, in million eco-points
 ■ Environmental impact due to Sanitec acquisition, in million eco-points
 — Environmental impact in relation to net sales (Fx adj) in % (Index: 2015 = 100)

Note: The environmental impact is measured in terms of eco-points based on the Swiss method of ecological scarcity (version 2013).

35

PERCENT
 Since the integration of the energy-intensive ceramic production business in 2015, the relative environmental impact has been reduced by 35 %.

5

PERCENT
 The goal of improving eco-efficiency by 5 % per year was exceeded.

RELATIVE ENVIRONMENTAL IMPACT – ECO-EFFICIENCY

For over 25 years, Geberit has been measuring its ecological footprint consistently as part of a comprehensive corporate eco-balance and using this as a basis for its intended goals. This is unique in the sanitary industry.

CO₂ EMISSIONS 2015 – 2020

■ CO₂ emissions, in thousands of tonnes
 ■ CO₂ emissions due to the Sanitec acquisition, in thousands of tonnes
 — CO₂ emissions in relation to net sales (Fx adj) in % (Index: 2015 = 100)

-33

PERCENT

CO₂ EMISSIONS

With its CO₂ strategy – the groundwork for which was laid back in 2007 – the company sets itself ambitious goals and makes an active contribution to environmental protection. Here, Geberit focuses on specific technical measures for saving energy and improving efficiency, plus the selective purchasing of renewable energy sources.

CREATING ADDED VALUE WITH ECO-DESIGN

Since 2007, Geberit has ensured that every new product should be better than its predecessor from an ecological perspective in order to conserve natural resources.

The following illustration shows an example of the eco-design principle using a typical Geberit product group – a WC system. The iCon Rimfree WC with new flush guide made of 69 % recycled ABS is installed on the Duofix element. In the Sigma 12cm concealed cistern, the new flush valve 212 enables individual water consumption settings. The flush is triggered via the recyclable Sigma30 actuator plate, which is fastened in a frame made of 100 % recycled ABS. All products are distinguished by their durability and can be repaired even after many years of use.

A COMMITMENT TO THE CIRCULAR ECONOMY

Among other aspects, Geberit products are characterised by their use of high-quality materials and a service life spanning several decades. The products are usually backwards-compatible and can be cleaned, maintained and repaired easily. A significant proportion of the product range also has a guaranteed spare parts availability of up to 25 years. The use of bought in recycled plastic is also playing an increasingly important role in closing material cycles.

THE PERFECT BALANCE

DESIGN MEETS FUNCTION

We use our passion for design and technology to inspire and excite people all over the world. By applying our vast know-how and almost 150 years of experience, we ensure our products are not just beautiful to look at, but truly make life easier and more comfortable.

Responsibly made from fine and durable materials, Geberit products are a perfect balance of elegant design and outstanding function. They are easy to clean, easy to use and increase comfort.

DESIGN
MEETS
FUNCTION

Design Meets Function is the name given to this fusion of outstanding functionality with aesthetic design for the entire bathroom.

GEBERIT IS A EUROPEAN MARKET LEADER ...

... in the field of sanitary products, providing outstanding added value in sanitary technology and bathroom products.

Geberit is a global ambassador for quality with sales offices in over 50 countries and 29 production sites worldwide, with headquarters in Rapperswil-Jona, Switzerland, where Caspar Melchior Albert Geberit founded the company in 1874.

Over 12.000 employees are committed to providing customers with innovative, sustainable and durable products of the highest quality.

Geberit prides itself on its strong competence for innovation, enabled and supported by the Group's wide-ranging research and development activities. Customers can rest assured that new products meet their needs – not to mention the very highest quality standards.

We asked private customers what is important to them in a bathroom. Six properties were mentioned time and time again: design, cleanliness, user-friendliness, space-saving solutions, comfort and accessibility. As everyone has different priorities, we offer bathroom series which are specifically adapted to different needs.

And that means you can create your very own dream bathroom. With products which embody functional design at its best. With reliable technology, which represents the state of the art of know-how in sanitary technology. At Geberit, you will find all functions for your personal wellness zone and bathroom design that corresponds exactly to your style. Look forward to a bathroom that fulfils your needs – and exceeds your expectations!

I EXPECT MORE FROM MY BATHROOM

DESIGN

A simple and timeless look that is easy to combine – for anyone looking for modern elegance, and a diversity of colours and materials.

CLEANLINESS

Clever products that remain virtually dirt-free and are easy to clean – for anyone that wants to keep cleaning to a minimum.

USER-FRIENDLINESS

Intuitive, easy-to-use products – for anyone who, after a conversion or renovation, wants to be sure of optimum functionality.

SPACE-SAVING

Clever functions and products that create space – for anyone who does not want to do without functionality and storage space.

COMFORT

Products that bring comfort and hygiene to the bathroom – for anyone who wants to treat themselves to some extra freshness, well-being and cleanliness.

ACCESSIBILITY

Easily accessible, floor-even bathrooms – for anyone looking for universal design, regardless of needs and age.

DESIGN

I ATTACH GREAT IMPORTANCE TO PERFECT BATHROOM DESIGN

Design Museum London, Musée Yves Saint Laurent in Marrakech and the Louvre Abu Dhabi: inspiring visits to exhibitions are some of the personal highlights on my travels. Ideas and inspiration I get here, I implement at home – in the bathroom too I attach importance to a perfectly coordinated design concept.

Design solutions from Geberit offer a whole range of options for creating stylish bathrooms down to the last detail. Products and solutions regularly receive renowned design prizes, such as the reddot award and the iF Design Award. With a variety of shapes, materials and surfaces as well as consistent perfection in processing, Geberit is compelling in every design concept.

GEBERIT ACTUATOR PLATES

Geberit actuator plates give every bathroom unique accents. Either round or geometric in shape, top-quality materials and trendy surfaces enhance every bathroom.

SIGMA21

SIGMA50

GEBERIT AQUACLEAN

Timeless, elegant design and concealed technology make Geberit AquaClean shower toilets genuine lifestyle accessories which convince users in terms of both look and function. A modern, stylish toilet equipped with exceptional functions.

GEBERIT AQUACLEAN SELA

The classic shower toilet functions in puristic, elegant design for aesthetes who are style conscious.

GEBERIT ONE

The stand-alone Geberit ONE washbasin is compelling with simple elegance and a design concept that makes full use of the possibilities provided by the prewall installation. Neither a tap hole bench nor a visible overflow spoil the overall aesthetic impression.

CLEANLINESS

HOW CAN YOU BEST DEAL WITH HAIR AND DIRT?

Sometimes I could tear my hair out: every time I have a shower, I can sense my partner's frustration because my hair clogs the shower drain and is very difficult to remove. What solutions can I use to make my bathroom as easy to clean and to keep tidy as I would like?

Hair in the bathroom is annoying and clogs the shower and washbasin drains. Geberit provides drain solutions which elegantly solve this problem and which are also easy to clean.

←
COMB INSERT
Many Geberit drain solutions have a comb insert to protect the drain.

GEBERIT CLEANLINE SHOWER CHANNEL

The comb insert of the Geberit CleanLine shower channel reliably collects hair. It can be taken out and cleaned with a flick of the wrist. The drain profile of the elegant shower channel is also easy to clean: unlike other solutions, it has no hidden, hard-to-reach areas. This means that neither dirt nor bacteria can accumulate. With just one wipe, the open outlet surface is squeaky clean.

Everyone wants their bathroom to be spotlessly clean and tidy, but nobody relishes the cleaning involved. Geberit therefore offers clever solutions which make cleaning and maintenance simpler and significantly reduce the formation of deposits.

TOUCHLESS FLUSH ACTUATION

The touchless flush actuation is less prone to dirt and reduces the risk of germ transmission.

←
SIGMA80 TOUCHLESS
The multiple awards winning actuator plate Geberit Sigma80 works with an IR sensor and meets the strictest hygiene requirements.

WC SEATS WITH QUICKRELEASE FUNCTION

CLEANING WITHOUT DIRT TRAPS

Lift off the lid, wipe the surface, click the lid back into place: with a removable seat and lid, the WC is much easier to keep clean all-round.

GEBERIT TURBOFLUSH

ASYMMETRICAL WATER GUIDE

Quiet, thorough and with outstanding flushing-out performance: the asymmetrical inner geometry of the innovative Geberit TurboFlush flush technology is based on a completely rimless WC ceramic appliance and minimises the cleaning required.

←
FLOW-OPTIMISED
The lateral water inlet in combination with the asymmetrical ceramic appliance sets the water in a spiral movement.

RIMFREE WCS

SIMPLER CLEANING WITHOUT A RIM

The Geberit Rimfree WC ceramic appliances offer modern standards of hygiene and ease of cleaning. The flush technology with flush guide ensures completely dynamic flushing out and reduces the amount of cleaning involved – even with the partial flush.

USER-FRIENDLINESS

MY BATHROOM UNDERSTANDS ME

I like to perform my morning rituals in the bathroom without thinking. I appreciate innovative functions and smart solutions that make my everyday routine simpler. How can I make my bathroom user-friendly all-round?

Geberit develops innovative products and solutions which make bathroom life simpler and more convenient. They are self-explanatory, relieve the user of work and offer real added value.

CLOSES ITSELF

The durable Geberit soft-closing mechanism closes the WC lid gently and quietly. Even if it is moved too quickly, it lowers itself slowly and closes quietly. This makes for more relaxed bathroom users and also protects the material of the seat, lid and ceramic appliance.

INTUITIVE REMOTE CONTROL

CLEAR USER GUIDANCE

The remote control for Geberit shower toilets has an intuitive design. The buttons feature simple symbols and can be operated without the need for explanation. On the rear, you can make and save individual user-specific settings.

SELF-EXPLANATORY

To operate a Geberit AquaClean shower toilet, you don't need a user's guide.

SPACE-SAVING

WHERE AM I GOING TO PUT ALL MY BATHROOM TREASURES?

Jars, tubes and pots, sponges and brushes: I love beauty products. But where am I going to put all my cosmetics in the bathroom? And how will I find my favourite products when I need them again?

There's no such thing as too much space in the bathroom. But a lot of bathrooms are not as big as their users would like. Geberit offers space-saving furniture and shelf surfaces that use the available space perfectly and make it simple to keep things tidy.

STORAGE SPACE WITHOUT INTERRUPTION

The Geberit VariForm washbasin cabinets are compelling with an outstanding amount of storage space – without being interrupted by a trap cutout. With variable arrangement systems, internal division can be adjusted exactly to suit personal needs.

GEBERIT ONE WALL-MOUNTED TAP

A wall-mounted tap creates additional space at the washbasin. It does not need a tap hole bench and is designed without interruptions.

NEEDS

Geberit offers lots of innovative solutions which make optimum use of the space in the bathroom. They also ensure tidiness and systematic order even on small floor plans.

GEBERIT WALL DRAIN

The fact that the shower drain has been concealed facilitates floor-even showers in their purest form. The floor under the shower is completely uninterrupted.

→
INTEGRATED IN THE PREWALL
By concealing the water outlet in the prewall, only the removable cover is visible on the wall.

MIRROR CABINET

LOTS OF SPACE IN THE PREWALL

The Geberit ONE mirror cabinet is integrated in the prewall with a barely visible projection. It gives the bathroom a generous look and offers plenty of storage space, without limiting the space.

APOTHECARY CABINETS

PILING HIGH FOR EXTRA STORAGE SPACE

They have been proving their worth in the kitchen for a long time, now apothecary cabinets are also conquering the bathroom. With good reason: the Geberit Acanto tall cabinets with apothecary pull-out offer plenty of storage space without taking up too much floor area. Thanks to the pull-out mechanism, cosmetic products can be stored tidily and are always to hand.

COMFORT

SOMETIMES I'M FED UP WITH MY SISTER

Every morning, my sister hurries to the bathroom just before I want to use it. And when she has finally finished, the smell is dreadful and there's nothing I can do about it apart from holding my breath. Can unpleasant odours not just disappear?

Geberit DuoFresh removes unpleasant odours before they can spread throughout the bathroom. Odour extraction units can be built in directly behind the actuator plate and are already integrated in lots of Geberit AquaClean shower toilets.

←
ACCESSIBLE
The ceramic honeycomb filter is easily accessible behind the actuator plate.

←
EFFICIENT AND QUIET
In the ceramic honeycomb filter, the air is cleaned thoroughly. A quiet fan conveys the purified air back into the room.

GEBERIT DUOFRESH ODOUR EXTRACTION UNIT

Geberit DuoFresh is beneficial for all the senses. The odour extraction unit starts automatically due to user detection when someone sits down on the toilet. It extracts the air directly from the ceramic appliance and then returns the purified air to the room. The DuoFresh module is easy to integrate into the Geberit Sigma concealed cistern.

DUOFRESH DESIGN VARIETY

The DuoFresh odour extraction unit can be combined with all mechanical actuator plates Sigma01 to Sigma50 series.

It is often only small things that make the difference between the standard and an extra touch of well-being and freshness. With Geberit, you bring more comfort into your bathroom – with wellness functions that you will soon no longer want to live without.

WHIRLSPRAY SHOWER TECHNOLOGY

PATENT ON THOROUGH CLEANING

The patented WhirlSpray shower technology dynamically enriches the shower spray with air. It ensures targeted and thorough yet particularly gentle cleaning with little water consumption. You feel fresh and clean all day long.

WC SEAT HEATING

PLEASANTLY WARM AUTOMATICALLY

← STARTING WITH PROXIMITY SENSOR

The WC seat heating starts automatically with a proximity sensor.

The WC seat heating gets toilet seats pleasantly warm at the right time. During the colder months, nobody should have to sit on a cold toilet any more. In the warmer months, the function can simply be deactivated.

ORIENTATION

DISCREET GUIDE THROUGH THE NIGHT

The Geberit orientation light can be set to seven colours. It switches on automatically when you approach the WC and provides orientation in the bathroom at night. Its subdued light makes it easier to go back to sleep again. The orientation light is integrated in various AquaClean shower toilets, the odour extraction unit DuoFresh and the sanitary module Geberit Monolith Plus.

NEEDS

ACCESSIBILITY

I WANT A BATHROOM FOR MY WHOLE LIFE

As an amateur sportsman, it is important to me to stay in motion. But what happens if my mobility decreases? As a precaution, I want to furnish my bathroom in such a way that it can be used optimally and remains easily accessible in every situation.

Your new bathroom should be able to satisfy your requirements for the next 25 years and be able to adjust itself to suit changes in your life. That is why it is important to plan ahead. Geberit provides you with bathroom equipment in front of the wall and systems behind it which offer you comfort in virtually every situation.

FLOOR-EVEN SHOWER SOLUTIONS

Floor-even shower solutions are chic and ensure you have step-free access to the shower area. With shower surfaces such as Geberit Olona, the antislip properties are integrated from the start. That gives you comfort and safety for today and tomorrow.

SUBSEQUENT HEIGHT ADJUSTABILITY

WC SEAT HEIGHT EASY TO ADJUST

The sophisticated installation technology of the Geberit ONE WC makes it possible to adjust the ceramic appliance flexibly in terms of height years after it was installed. Particularly appealing: no structural measures in the prewall are necessary because the technology for height adjustability is in the WC. That provides flexibility across the generations.

YOUR WISHES, YOUR BATHROOM

Which qualities are particularly important to you in your bathroom? Geberit offers bathroom series that are specifically tailored to different needs. Using the table on the next page, you can quickly find the bathroom series that suit your specific needs, life situation and budget.

CONTENTS

WHEN DESIGN
AND FUNCTION
BECOME ONE

Geberit ONE offers a wide range of options for designing bathrooms that impress both aesthetically and functionally. Washbasins, bathroom furniture and mirror cabinets in various designs are perfectly coordinated with one another and can be combined to suit your individual requirements.

WHEN DESIGN AND FUNCTION BECOME ONE

WASHBASIN VARIETY WITH INNOVATIVE DRAIN

The Geberit ONE washbasins with a horizontal drain combine the highest design requirements with unique functionality.

The horizontal washbasin drain has been tailored to the design of the washbasins and is cleverly positioned at the back edge of the bowl. Its innovative technology creates more space in the drawers of the washbasin cabinet. By shifting it to the rear, the drain is not directly in the water jet's line of fire. This prevents water splashes from the drain, leading to a significant reduction in water and limescale residues and the amount of cleaning required. A magnetic attachment holds the cover exactly in position. The cover can be removed with a flick of the wrist in order to clean the attached comb insert. The version with hidden overflow also allows the washbasin to be filled without risk of the water overflowing.

1 Clear lines: Angular lay-on washbasin with integrated shelf. **2** Elegantly integrated: Vanity basin with large shelves on the side. **3** Round lay-on washbasin with wall inlet. **4** Space for two: Washbasin with asymmetrical shelf on the side. **5** Water fun for two: Standard double washbasin with deck-mounted taps.

1

Geberit ONE washbasins with a classic drain take tried-and-tested products to a new level.

Geberit ONE washbasins with a vertical drain are available in three versions: as standard washbasins and vanity basins in various widths, and as lay-on washbasins in angular or bowl-shaped designs. The drain has an elegant ceramic cover with an integrated comb insert. All models are equipped with space-saving drain technology that does away with the need for a conventional trap cutout in the cabinet. As a result, additional space is created in the upper drawer of the washbasin cabinet.

WHEN DESIGN AND FUNCTION BECOME ONE

WASHBASIN VARIETY WITH CLASSIC DRAIN

WHEN DESIGN AND FUNCTION BECOME ONE

QUALITY IN MANY FACETS

CONTEMPORARY AND HIGHLY FUNCTIONAL DESIGN

The expanded Geberit ONE bathroom furniture range offers a variety of design possibilities. The clever drawer mechanism with push-to-open mechanism and soft closing ensures quiet running and gentle opening and closing of the drawers while also making fine adjustment easier. The lay-on washbasins can not only be positioned centrally on the washtops, but also asymmetrically. All materials and surfaces are moisture-resistant. The entire furniture range is available in six coated surfaces and two wood surfaces. High-quality cover plates made of stoneware and glass are also available.

WHEN DESIGN AND FUNCTION BECOME ONE

RAY'S OF LIGHT WITH ADDED VALUE

Geberit ONE mirror cabinets with ComfortLight ensure perfect lighting according to the daily routine of the bathroom user: bright, clear and invigorating for getting the day off to a good start, soft and flattering before going to bed, and discreet and calming as an orientation light at night. Simple operation makes it easy to find the ideal lighting for your personal body clock.

The integrated lighting concept is one of the highlights of the Geberit ONE mirror cabinets. The four different light sources harmonise perfectly with one another and ensure an authentic mirror image without casting shadows. Natural light – from clear, invigorating morning light to the bright midday sun, finishing with a soothing sunset or atmospheric candlelight – serves as a model for the extensive development work carried out by the Geberit team. The lighting is continuously dimmable and the control system is intuitive to operate. Brighter light is automatically cooler and darker light warmer. The brightness and lighting mood thus adapt to the needs of the bathroom user and their body clock. The lighting concept is a typical example for the Geberit motto Design Meets Function.

↑
ORIENTATION LIGHT

Soft lighting for finding your way to the washplace at night and then getting back to sleep easily.

↑
CANDLE LIGHT

Discreet, warm lighting for a relaxing time in the bathroom.

↑
STANDARD LIGHT

Non-dazzling lighting for everyday activities at the washplace.

↑
WORKING LIGHT

Bright, clear lighting for intensive beauty care.

Geberit ONE mirror cabinets are available in a wide range of models for designing the bathroom completely according to your needs and personal tastes. In the back-to-wall installation, the storage space is shifted to the wall. This means freedom of movement at the washplace and a clear, tidy appearance. The models for classic attachment in front of the wall also have a slim design and can be installed in any bathroom without the need for special preparations.

The models are available in two versions. All-over mirror doors hide all cosmetic products inside the cabinet. Meanwhile, shortened doors have an open, lit niche at the bottom, meaning regularly used items remain within easy reach even when the mirror doors are closed.

1 Shortened mirror doors have an open niche where important items can be kept within easy reach. 2 The mirror doors without handles have a pronounced visual lightness. 3 An integrated, easily accessible mains connection for a shaver or hairdryer can be found in the upper part of the cabinet. 4 Back-to-wall installation means the cabinet is concealed almost entirely in the prewall. 5 The height of the glass shelves is continuously adjustable.

WHEN DESIGN AND FUNCTION BECOME ONE

EVERYTHING AT YOUR FINGERTIPS IN THE MIRROR CABINET

AVAILABLE FREE OF CHARGE

The light settings can be adjusted via smartphone with the Geberit Home-App. Time-controlled settings are also possible, for example, for programming different lighting moods depending on the time of day or night. External light sources can be networked and connected to smarthome-systems via a DALI interface.

CONCEALED GEBERIT ONE MIRROR CABINETS

WHEN DESIGN AND FUNCTION BECOME ONE

PERFECT PROPORTIONS, CLEVER DETAILS

The wall-hung Geberit ONE WC boasts an elegant, perfectly balanced design. A eureka moment comes when opening the lid, revealing the asymmetrical, completely rimless inner geometry of the WC ceramic appliance. TurboFlush flush technology: The asymmetrical geometry of the ceramic appliance and lateral water inlet result in a unique flushing-out performance. The technology is much more effective than a normal flush, not to mention much quieter and more efficient. The WC seat and lid can be easily removed with a flick of the wrist for cleaning. Thanks to the sophisticated installation technology, the height of the ceramic appliance can be flexibly adjusted without needing to open up or damage the wall – even years after being installed.

CLEANLINESS AND INTEGRATED FLEXIBILITY

↑
The WC lid can be removed individually to ensure easy cleaning.

↑
The WC lid and seat can be removed by pulling them upwards after raising them.

1

KeraTect

With their Italian design, the washbasins from Geberit Citterio embody a simple and timeless elegance.

Symmetrical lines frame gently rounded inner basins and provide generous space for washbasins. A perfectly designed and specially developed, ceramic waste cover is seamlessly incorporated into the basin

design. Nothing can disrupt the aesthetics of the washbasins, as they are designed completely without an overflow hole, made possible by the patented Geberit washbasin connector Clou.

1 The gently curved inner basin is an exciting contrast to the geometric outer form. 2 The lay-on washbasins in a pure organic shape are especially eye-catching. 3 Matching washbasin cabinets mean that cosmetic products are always within reach. 4 Washbasins, bathroom furniture and illuminated mirrors. 5 Geberit Citterio offers elegant solutions when space is at a premium, such as in guest bathrooms. 6 Stylish storage space for sophisticated bathroom designs.

GEBERIT CITTERIO BATHROOM FURNITURE

GENUINE ITALIAN DESIGN GRANDEUR

The generous storage space solutions complement the puristic organic elegance of the Geberit Citterio bathroom ceramics. The design series is synonymous with a distinctive ordered aesthetic.

The finish on the Geberit Citterio washbasin cabinets is as unique as you are. High-quality glass cover plates in shades to match the chosen furniture colour lend the Geberit Citterio bathroom furniture an additional shine. The combination of wood and glass results in an exciting and elegant interplay – rounded off by the door handles in on-trend champagne.

GEBERIT

GEBERIT XENO²

The designer range Geberit Xeno² is synonymous with architectonic design minimalism. Clear geometric lines outside – soft, natural shapes inside. This combination leads to surprising results that are easy on the eye and a joy to use. Geberit Xeno² boasts a perfectly coordinated product range comprising intelligent, well-thought-through elements created in an identical design language. Contrasting design, harmoniously combined.

in a minimalistic design.

GEBERIT XENO² WASHBASINS

Minimalist and superior design combined with convenient and versatile functions: Geberit Xeno².

As an expression of the natural clear lines, Geberit Xeno² washbasins have a slightly raised tap hole bench with a narrow platform to the edge of the basin. The absence of overflow holes means that the aesthetics of the inner basin's flowing forms are not disrupted. The clear design statement also offers advantages when it comes to hygiene and ease of cleaning.

1 The soft curved form of the basin appears as an exciting contrast to the clearly geometric outer contour of the washbasins. **2** A clear focus: bathroom furniture and WCs perfectly match the washbasins. **3** The geometric design language of Geberit Xeno² for modern bathroom designs. **4** A slightly raised tap hole bench is a beautiful and convenient design aspect. **5** Exceptional: asymmetrical basin form with shelf at the side and rear. **6** The asymmetrical basin form permits interesting solutions even in small spaces.

GEBERIT XENO² WASHBASINS SLIM LINE

SLIM LINES FOR EXCLUSIVE WASHBASIN AREAS

Geberit Xeno² washbasins made of the solid surface material Varicor® stand out due to their particularly SlimRim. Together with the matching bathroom furniture, they create highly exclusive bathrooms featuring washbasin areas that are spacious while at the same time boasting a lightweight appearance. Fascinating details such as an integrated light strip underneath the washbasin provide interesting highlights.

3

4

2

5

1 An elegant washbasin area for two people with a light strip discreetly incorporated between the washbasin and the washbasin cabinet. **2** The washbasin cabinets can also be combined with the functional towel rails from Geberit's bathroom accessory range. **3** A gentle push-to-open mechanism for easy opening and closing of the drawers. **4** The light strip also lights up the washbasin cabinets, which can be laid out in a variety of different ways. **5** An inviting and spacious washbasin area with wall-mounted taps and a matching illuminated mirror.

GEBERIT XENO² BATHROOM FURNITURE

AN ELEGANT LINE WITH CLEVER DETAILS

The elegant Geberit Xeno² bathroom furniture follows the geometry of the ceramic, creating a minimalistic bathroom ambience. Sophisticated furniture fronts lend the series a naturally lightweight appearance. The handle-free washbasin cabinets underline the minimalist design with a functional push-to-open mechanism that ensures ease of use. The furniture provides generous storage space, with practical features such as antislip mats and clever arrangement systems for bathroom accessories. Integrated LED lighting ensures a perfect view inside the upper drawers.

ELEGANT GLASS COVER PLATES

Glass cover plates underline the elegant look and provide lasting surface protection for washbasin and side cabinets.

Convenience meets precision in the 170 cm tall cabinet. The fitted highlights include variable glass shelves, a large internal mirror, integrated profile handles and a convenient SoftClosing mechanism. The cabinet for handrinse basins and the tall cabinet are available with right-hand or left-hand doors.

GEBERIT XENO² ILLUMINATED MIRRORS CREATE AMBIENCE

Matching illuminated mirrors with LEDs follow the strict geometry of the Geberit Xeno² series. Available for all Xeno² washbasins in widths from 40 to 120cm, they allow the washbasin to take centre stage with atmospheric, indirect light. When applying make-up or shaving, direct lighting from above can be activated via a sensor switch with a dimming function. For a clear view at all times, antimist heating is available for the mirror surfaces.

1

1 Versatile drawers with push-to-open mechanism ensure order and convenience. 2 The Geberit Xeno² illuminated mirrors with antimist function for a clear view in all situations. 3 Sophisticated furniture fronts underline the lightweight appearance of the bathroom furniture series.

A PERFECT WAY TO START THE DAY IN STYLE

Geberit myDay impresses thanks to its flowing, elegant shapes, thus creating an ambience of natural lightness. This is down to the unique design of the ceramic sanitary appliances, which incorporates soft curves and large radii. Standard washbasin sizes as well as a double and countertop washbasin offer a high degree of flexibility that caters for personal design preferences. The large-sized drain covers with high-quality chrome edging are practical and elegant.

Clever: the patented Clou system, which can be added.

FURNITURE WITH PRACTICAL FEATURES AND COMFORT-ENHANCING DETAILS

The bathroom furniture from the designer range stands out thanks to the softly rounded edges on the fronts. The interior impresses with practical features and comfort-enhancing details such as antislip mats and internal LED lighting in the washbasin cabinets. Illuminated mirrors are available with antimist function as standard.

1 The integrated arrangement system allows bathroom accessories to be stored away in an organised manner in next to no time. **2** A practical tall cabinet with four adjustable shelves and door organiser offers lots of storage space. **3** Washbasin cabinets in current trend colours fit perfectly with the smooth lines of the ceramic sanitary appliances in the Geberit myDay series. **4** An elegant solution with a lay-on washbasin. Generously sized shelf surface with glass cover.

GEBERIT MYDAY WCS AND BIDETS

→ ACTUATOR PLATE: Geberit Sigma50.

HARMONY AND HYGIENE IN A PERFECT DESIGN

The wall-hung WC from Geberit myDay fits in perfectly and is the ideal addition to the design line. The straight lines are also characteristically rounded and offer a look that is both solid and delicate at the same time. The hidden wall fixing and the closed outer contour, the latter of which rounds off the understated design and is easy to clean, also contribute to the balanced overall appearance. The WC seat combines with the WC ceramic appliance in a stylish and sophisticated way and is optionally available with a SoftClosing mechanism. The non-porous surface is completely smooth and therefore dirt-repellent and easy to clean. The bidet, whose design perfectly matches that of the WC, is also a thing of beauty. The soft curves provide a comfortable grip and the interior is so well designed that using the stylish bidet is a joy.

1

CLEAR DESIGNS, SLIM CONTOURS, GENTLE CURVES
The washbasins from the Geberit Acanto bathroom series are presented in a timelessly modern soft organic design, with clear geometric contours and organically shaped inner basins. They are available in different variances as standard, slim or compact basins in different sizes. In this way, Geberit is meeting the desire for attractive, modern and individually designed bathrooms. The SlimRim design gives washbasins a particularly elegant, slender appearance. The standard washbasins are available with and

without shelf surface or with short projection for en-suites and guest bathrooms. Furthermore, the Acanto series offers two washbasins with integrated ceramic Clou system and no overflow hole.

1 Harmonious furniture concepts with a great deal of creative freedom: Geberit Acanto bathroom series. **2** The washbasin with integrated shelf surface is a visual highlight and offers clear, added value. **3** The SlimRim washbasins have a particularly elegant, slender appearance. **4** Combination of SlimRim washbasin with under and side cabinets for a lot of storage space. **5** Space-saving solutions for guest bathrooms.

GEBERIT ACANTO BATHROOM FURNITURE

FURNITURE TO EXPRESS YOUR INDIVIDUALITY

The Geberit Acanto bathroom furniture offers freedom of design and functional excellence. Following extensive tests with consumers, the series has been developed to meet the widest variety of everyday needs. The inside of the furniture is surprisingly flexible, with the arrangement of the drawers, compartments and shelves creating an uncluttered environment. Magnetic boards – which can be mounted on the wall – enable storage trays or brackets to be attached precisely where the cosmetic items are needed. The innovative concept transforms the mirror cabinet above the washbasin into a beauty centre with a built-in magnifying mirror offering greater versatility.

With a wide range of washbasin cabinets, tall cabinets, mirror cabinets and shelf solutions, the Geberit Acanto bathroom furniture creates the perfect storage space for every bathroom. The furniture is available in the four colours white, sand grey, lava and black.

The designers of the bathroom furniture placed a particular emphasis on a modern combination of different materials and surfaces such as glass, metal, painted and wood finishes, not to mention the individual composition of the different furniture types.

GEBERIT ACANTO WCS AND BIDETS

TIMELESS CERAMIC CONTOURS FOR BATHROOMS OF THE HIGHEST QUALITY

The Geberit Acanto WCs and bidets follow the soft-organic design of the inner bowl of the washbasins. The WCs have a Rimfree design, which not only looks great but is also easier to clean and more hygienic. The WC seat with QuickRelease hinges makes cleaning quick and easy. The external shape also has a consistent, smooth surface with hidden fastenings for both wall-hung and floor-standing models.

GEBERIT ICON

Linear design, clear lines and yet so flexible – that is the Geberit iCon complete bathroom series in a nutshell. An extensive range of ceramic appliances and bathroom furniture in a modern design language provides the maximum in design flexibility and stands out due to its impressive versatility. For people who are just as multifaceted. Simple appearance, flexibility in bathroom design.

GEBERIT ICON WASHPLACES FOR GUEST BATHROOMS

1

WASHBASIN SOLUTIONS FOR SMALL FLOOR PLANS

The Geberit iCon bathroom series includes washbasins that are specially designed for small bathrooms or guest WCs. They offer a wide range of solutions for cramped floor plans. Shelves on the side and tap holes allow for low installation depths. Corner solutions also mean they can be installed in niches.

Washbasin cabinets, low cabinets and side elements matching the dimensions of the washbasins create storage space. The Geberit Option Plus illuminated mirror with a width of just 40 cm provides pleasant illumination in small bathrooms and is compatible with the space-saving washbasins.

GEBERIT VARIFORM

The Geberit VariForm design concept is based on the four basic geometric shapes – round, rectangle, oval and ellipse and the three most common installation types. Together with the Geberit VariForm bathroom furniture with its calm, understated design, the range now offers the creative freedom to design the bathroom exactly in line with one's own individual wishes. Modular washbasin area solutions for absolute design freedom.

DESIGN

CLEANLINESS

USABILITY

1 Lay-on washbasins with gently rounded elliptic shape, combined with wall-mounted taps.
2 Lay-on washbasins with clean rectangular geometric shape, with deck-mounted taps on base panel.

GEBERIT VARIFORM MODERN WASHBASINS

THE LATEST DESIGN TRENDS – MADE VERSATILE AND ERGONOMIC

The streamlined rims of Geberit VariForm washbasins are the perfect match for cutting-edge bathroom designs. Countertop and lay-on washbasins are available both with and without a tap hole bench. The tap can be installed as a deck-mounted tap on

the ceramic or the base panel – or alternatively, as a wall-mounted tap on the prewall installation. All Geberit VariForm models feature a generous basin depth to ensure freedom of movement in ergonomic conditions. Made from high-quality sanitary ceramic, the washbasins are scratchproof and resistant to cracks, as well as easy to care for.

The Geberit VariForm design concept is based on the four most important basic geometric shapes, using them to create new and different variations every time. The under-countertop, countertop and lay-on washbasins from the ceramic appliance series are suitable for public sanitary facilities as well as washbasin areas in hotel and private bathrooms. The modular system offers an almost endless range of design options.

GEBERIT VARIFORM WASHBASIN CABINETS FOR LAY-ON WASHBASINS

Geberit VariForm bathroom furniture expands the design possibilities of the washbasin area with VariForm lay-on washbasins.

FOR WASHBASIN AREAS WITH STYLE AND STORAGE SPACE

The calm, understated design of the Geberit VariForm washbasin cabinets gives the washbasin area a sense of lightness and perfectly complements the lean, modern design of the washbasins. The modular system permits flexible planning adjusted to the space. The

washbasin cabinet is obtainable in widths of 75 and 90 cm, each with one drawer. The elements are additionally available as a set with a low cabinet of the same construction height or in an L-shape with a larger low cabinet. If even more storage space or two washbasins are required in the bathroom, different combinations can be connected with each other according to preference. The furniture comes in a wide range of colours – white, lava, oak and hickory – and therefore blends in harmoniously with a wide range of furnishing styles.

GEBERIT SMYLE WASHBASINS

CAPTIVATING LIGHTWEIGHT APPEARANCE

Ornate lines, harmonious shapes and narrow rims characterise the washbasins of the Geberit Smyle complete bathroom series. They provide an exciting contrast to the functional design of the inner basin and the generous shelf surfaces at the rear of the washbasins. The profile handles of the washbasin cabinets mirror the design of the washbasins and underline the harmonious appearance. Geberit Smyle washbasins are available in two designs and many different sizes, from handrinse basin to comfortable double washbasin. It thus offers a wide range of solutions to meet all requirements in the modern bathroom.

1 Spacious double washbasin: the profile handle of the washbasin cabinet is perfectly adapted to the curve of the basin. **2** Integrated lighting elements in the mirror help the washbasin area take centre stage. **3** Washbasins in a soft-organic design. **4** Washbasins in a soft-geometric design. **5** A wide bathroom furniture range with attractive surfaces.

GEBERIT SMYLE BATHROOM FURNITURE

MORE DESIGN FREEDOM IN THE BATHROOM

As part of the facelift given to the Smyle bathroom series, Geberit adapted the furniture to the form of the ceramic washbasins. To achieve this, the furniture concept features thin washbasin contours. As is standard at Geberit, high-quality materials, coated surfaces and modular elements are used. The washbasin cabinets, low cabinets, medium cabinets and wall shelf with towel hook can be mixed and matched to create a wide range of furniture combinations that optimally use the space in the bathroom and meet diverse furnishing wishes.

Depending on requirements, open cabinets can also be combined with closed ones, for example. Additionally available drawer inserts give the storage space a clear structure. Glass shelves and an internal mirror give the medium cabinets a touch of premium class. Colour-adapted glass tops protect the shelf surfaces on the low cabinet. The integrated profile handles have the same colour as the fronts of the furniture, with their matt surface and ornate lines forming a subtle contrast.

1 Cosmetic products can be neatly stored in the bathroom furniture's SoftClosing drawers. **2** Handrinse basins with matching washbasin cabinets are suitable for the furnishing of small bathrooms and guest toilets. **3** Bathroom furniture with ground clearance makes cleaning the floor easier. **4** Magnetic boards with movable shelves offer a high degree of flexibility.

GEBERIT SELNOVA WASHBASINS

HARMONIOUS BATHROOMS FOR ALL ROOM SIZES

The washbasins from the Geberit Selnova have an evenly rounded basic form. The inspiration behind this is provided by basin radii with an organic, natural shape. The design language of Geberit Selnova is characterised by a naturally soft geometry with gentle curves. The softly curving inner basin and a slim basin edge segue into a large tap hole bench that serves as a storage space. The range of ceramic appliances is rounded off by built-in and under-countertop washbasins.

1 The soft curves of Geberit Selnova are adapted from nature. 2 Slim edge with a smooth transition to the storage space behind. 3 Washbasin solutions with a pedestal to conceal the trap.

GEBERIT SELNOVA WCS AND BIDETS

ACTUATOR PLATE
Geberit Sigma21.

The wide range of wall-hung and floor-standing WCs with built-in ceramic cisterns has a solution for everyone when it comes to meeting structural requirements in the bathroom.

SUITABLE WCS FOR EVERY CONSTRUCTION SITUATION

The WC ceramic appliances from Geberit Selnova also feature classically soft curves. In order to offer modernisation solutions for every bathroom, they are available as a wall-hung and floor-standing model. With Rimfree technology the WC ceramic appliances are particularly easy to look after.

Matching bidets are also available as a wall-hung and floor-standing model.

GEBERIT SELNOVA SQUARE

Geberit Selnova's classic designs blend harmoniously into every room. This is in addition to many clever solutions for special requirements, making it very easy and affordable to get an old bathroom to shine in new splendour in all its modern glory. Corners and edges, new highlights.

ACCESSIBILITY

An elegant pair – the integrated washbasin with particularly narrow rim combined with the washbasin cabinet.

GEBERIT SELNOVA SQUARE WASHBASINS SLIM AND BATHROOM FURNITURE

SLEEK ELEGANCE, PERFECTLY TRIMMED

The new, sleek Geberit Selnova Square washbasins combine a clear rectangular design with an organically shaped inner basin. They form a perfect unit with their washbasin cabinets and matching bathroom furniture with trendy surfaces in white high-gloss coated.

GEBERIT SELNOVA SQUARE BATHROOM FURNITURE

A CLEAN-LINED CONCEPT

Clean lines and gentle chamfering are the key features of Selnova bathroom furniture. The washbasins taper downwards to form a connection with the cabinets underneath, which are set noticeably further back. This approach enhances the slimline, lightweight appearance of the bathroom series. The integrated, delicately curving profile handles mimic the curves formed by the fronts of the washbasins, emphasising the impression of lightness.

SOLUTIONS FOR A RANGE OF INSTALLATION SITUATIONS

The fronts and bodies are available in white. The furniture can be wall-hung or floor-standing, with chrome feet or skirting boards available to choose from. Modular side cabinets are available in a variety of shapes and sizes. The furniture is delivered fully preassembled, with the option of attaching the door hinge on either side.

FOR STYLISH BATHROOM PLANNING THAT SPANS GENERATIONS

The Geberit Selnova Comfort solutions enable older people and those with reduced mobility to retain their independence in the bathroom without compromising on the quality of fittings. The products implement important functionalities in an appealing design, which is based on Geberit's many years of experience in the development and manufacture of solutions for bathrooms that span generations. These solutions include the extremely flat washbasin offering ample legroom when a wheelchair is rolled underneath or WCs with a wide projection of 70 cm to facilitate easy movement from the wheelchair and a WC seat secured against slipping.

1 Washbasin with full pedestal for an elegant impression. 2 Washbasin with half pedestal - light and airy, and easy access to clean the floor. 3 Washbasin without pedestal, the uncomplicated solution.

CHILD-FRIENDLY SANITARY ROOMS ENCOURAGING CHILDREN TO LEARN ABOUT HYGIENE

Children have particular requirements for bathrooms in childcare centres, schools and other establishments. Child-friendly bathroom fittings support and simplify the development of hygienic practices in a playful way.

CHILD-FRIENDLY WASHBASINS

- Sanitary ceramics at a child-friendly height and with child-oriented equipment
- Can be mounted at a flexible height between 450 and 600 mm depending on the age
- Designs that appeal to children and promote toilet training

Hygiene, easy cleaning and safety play an important role when designing sanitary rooms in childcare establishments. However, it is also important not to forget the fun factor which makes teaching children about cleanliness so much easier.

HYGIENE EDUCATION THROUGH FUN AND GAMES

A child-friendly, low wall-hung washbasin with a design that appeals to even the youngest of critics makes teaching children about cleanliness easier and simply more fun. Clever details such as the low installation depth and a closer tap hole make it easier to use. It also features taps in amusing designs and colours that awaken a child's curiosity.

- 1 Child-friendly basin height. 2 The soft basin form reduces the risk of injuries.
3 Tap hole bench brought forward: makes it easier for short arms to reach the water jet.

WASHSPACES FOR PLAYFUL LEARNING

- For teaching children about hygiene in a playful way
- Safe and inviting design
- Suitable for children of different ages
- Can be adapted to the spatial circumstances
- Stimulates learning through play: the top basin can be filled with water thanks to a removable damming plate
- Maximum level of dammed water is 100 mm with the damming pipe – prevents flooding

1 Washspace for four children with damming device and various height levels. 2 Washspace for three children with damming device and various height levels. 3 Washspace for two children without a height offset. 4 The soft contours protect against injuries. 5 Child-friendly tap with manual actuation. 6 Child-friendly tap with touchless IR sensor designed specifically for little hands. Both taps available in a coloured and in a bright chrome-plated version.

Children love to play with water! With special basins made of solid surface material, it is easy to encourage children to play with water in sanitary rooms. Cascading basins at various heights turn washing and brushing teeth into fun and games. And little ones of all ages are sure to find the right basin for their height.

EASY TO USE

The handle of the deck-mounted tap for child-friendly sanitary rooms is designed as a baseball cap with a peak, which makes washing hands even more fun.

HYGIENIC

Instead of a baseball cap with a peak, the electronically controlled tap in the same design features a fixed hat.

INDIVIDUAL

Geberit washspaces can be adapted to various requirements and spatial circumstances. They come in a number of different sizes and formats, and individual special fabrications are also possible.

CHILD-FRIENDLY WCS AND ACCESSORIES

TOILET TRAINING MADE EASY
WC ceramic appliances with child-friendly heights and equipment help children to adapt to toilet training. The child-friendly WC ceramic appliance with feet is not just funny to look at, it also has a practical side: children whose feet do not yet touch the floor when they are sitting down can rest them on the appliance's feet. And with various surfaces and WC lids, everyone will find the perfect seat for the bathroom.

1 Inviting WC seat. **2** Small children can rest their feet on the WC ceramic appliance's feet. **3** The WC seat is easy to clean, hygienic and ergonomic. **4** The "ears" of the WC seat can be used as support handles. **5** Geberit baby washdown WC 280 mm. **6** Geberit child washdown WC 320 mm. **7** Geberit child washout WC 370 mm. **8** Geberit child wall-hung washdown WC.

- Child-friendly WC solutions
- WC seats for every age
- Child-friendly designs

GEBERIT PUBLICA SPECIAL SOLUTIONS TAILORED TO YOUR NEEDS

Certain care and hygiene scenarios, as well as industrial, commercial and leisure facilities, require special solutions for particular needs and functions. Geberit Publica offers a wide range of special products for various application ranges and special requirements.

SUITABLE FOR:

EDUCATIONAL
INSTITUTIONS

CARE
FACILITIES

WORKPLACES

TRANSIT BUILDINGS,
TRADE FAIRS, SPORTS
FACILITIES

TAILOR-MADE SPECIAL WASHBASINS

Washbasins for very specific applications can be used in situations where normal washbasin ceramics or handrinse basins may fall short.

Geberit Publica offers a wide range of special solutions that are tailor-made for specific application ranges. Such solutions are required, for example, in nurseries and schools, hospitals and care homes, rehabilitation centres, in private homes and the leisure sector, in sports facilities as well as in industry, craft and trade.

1

1 Geberit Publica laundry sink for cleaning items in rehabilitation centres and in industry, for mounting on two ceramic stands. 2 Geberit Publica sink for cleaning items in industry and trade. 3 Geberit Publica sink for cleaning items in rehabilitation centres, industry, private homes and the leisure sector. 4 Geberit Publica foot basin with low suspension for schools, rehabilitation centres, industry and the leisure sector. Also for religious foot washing rites. 5 Geberit Publica double sink for cleaning items in rehabilitation centres, industry, private homes and the leisure sector.

CLEANER SINKS AND MORE

SPECIAL SINKS

Geberit Publica offers a range of sinks and basins for special applications such as cleaning items, discharging waste water or washing out textiles.

CLEANER SINKS

Special cleaner sinks are designed for the requirements posed by the disposal of waste water, mobile WCs and the like.

1 Geberit Publica slop hopper for filling and emptying buckets, disposing of waste water, emptying mobile WCs, rinsing potties, etc. For nurseries, hospitals, retirement homes, camping sites, industry/production, restaurants and event locations, schools and office buildings. **2** Stainless steel hinged grating of the Geberit Publica slop hopper with compensation pad. **3** Geberit Publica cleaner sink for workrooms in schools, nurseries, rehabilitation centres, industry and trade, private homes and the leisure sector, can be combined with hinged grating and plastic cover.

→
ACTUATOR PLATE:
Geberit Sigma10.

GEBERIT

Squatting pan as an alternative to the sitting WC.

SQUATTING PAN

In certain cases, people require squatting pans which are built into the floor.

NO CONTACT WITH THE SANITARY CERAMIC

Squatting pans are seen by many people as a hygienic alternative to the sitting WC, as there is no direct skin contact with the WC ceramic.

SURFACE-EVEN INSTALLATION IN THE FLOOR

Geberit Publica squatting pans are designed for surface-even installation in the floor and for installing with a Geberit Sigma concealed cistern. The pan is installed in a closed-off mortar bed.

WASHBASINS

Lay-on, countertop and under-countertop washbasins offer individuality when fitting out and furnishing the bathroom. They can be combined in diverse ways, such as with glass, natural stone and countertops made of many other product materials.

GEBERIT PRECIOSA II WASHBASINS

**WHEN THE SUPERFLUOUS IS OMITTED,
THE TRUE SUBSTANCE IS REVEALED**

Design purists seek clear lines and structures. By limiting itself to the circle and rectangle, which determines all the washbasin's components, Geberit Preciosa II consistently fulfils these desires. Towel rails at the front or side continue the geometric contour of the washbasin.

MIRRORS AND MIRROR CABINETS

Illuminated mirrors and mirror cabinets are a real focal point in the bathroom. The Geberit Option series offers a comprehensive selection that provides the perfect soft light for your bathroom routine. Fashioning washbasin prominence in any bathroom.

GEBERIT OPTION MIRRORS

GLOWING EXAMPLES OF SUCCESSFUL BATHROOM SETTINGS

Illuminated mirror elements and mirror cabinets from Geberit bring the light where you want it while also creating a homely atmosphere thanks to the pleasant lighting. The lighting concept of the Geberit Option Plus mirror is particularly convenient. It provides an optimum illumination of ceiling, face and washbasin area. The lighting can be dimmed with a sensor. An antimist function can be activated if required. Geberit Option illuminated mirror elements are available in many different sizes with a width of 40 to 120 cm.

BATHTUBS

A comfortable bathtub is very important to bathroom customers. Who doesn't enjoy relaxing in a warm bath and leaving the stresses of the day behind. Geberit offers bathtubs in numerous formats, designs and with a variety of different features that bring a touch of wellness into every bathroom, regardless of the floor plan.

ELEGANT HARMONY

Geberit Tawa bathtub with slim rim and a new, minimalist bathtub drain with turn handle.

GEBERIT BATHTUBS

A pleasant warmth relaxes the limbs while enchanting fragrances pamper the senses. Taking a bath in your own bathroom means peace, tranquillity and relaxation. These are the most beautiful breaks that everyday life has to offer. Pure wellness in warm water.

GEBERIT SOANA BATHTUBS

-  Warm temperature of the surface
-  Durable, long-lasting material
-  Easy to repair if scratched
-  Acoustic and thermal insulation
-  Colour match with ceramics
-  Easy to clean
-  Low product weight

STYLISH BATHING PLEASURE

Created in a soft organic design, the Geberit Soana bathtubs offer an indulgent bathing experience. The sense of well-being is supported by the smooth surface of the bath material, which keeps the water warmer for longer. The bathtub is available with a waste outlet in the middle or at the narrow end. The Geberit PushControl waste and overflow is the perfect addition, with the slim design matching the outstanding comfort of the bathtub.

GEBERIT TAWA BATHTUBS

PURE RELAXATION IN SOFT GEOMETRIC BATHING COMFORT

The bathtub Geberit Tawa features soft curves and a clear outer contour. As a rectangular bathtub single and duo, it comes in six sizes. The outlet of the single tubs is at the foot of the bath; they are extremely comfortable for one person lying down in the tub. The duo tubs are chamfered on both sides so that two people can sit or lie in the tub together comfortably. In this case, there is a central outlet.

Extremley narrow tub edge.

→ SHOWER CHANNEL: Geberit CleanLine.

GEBERIT SHOWER SOLUTIONS

Today, floor-even showers are an important part of discerning, comfortable bathrooms – they offer considerably more comfort and simply look better. And thanks to clever technical solutions, they are also easy and safe to install. The shower of today.

GEBERIT SHOWER SURFACE OLONA

The Geberit shower surface Olona is compelling thanks to its elegant appearance in matt white with a design waste plug as well as the palpably solid material combination of stone resin with a Gelcoat finish.

The surface design covered in Gelcoat gives the matt white shower surface Olona a visible and tangibly elegant look. The drain cover in the same colour is aesthetically enhanced by a slim-line chrome ring. Thanks to its Class B antislip properties, the shower surface offers secure footing whatever your age. With 25 different sizes and formats, there is a suitable model for every floor plan. Installation is flush with the tiles or, in renovation, is mounted with a narrow threshold above the bathroom floor.

↑ Fine, attractive touch: the slim-line chrome ring which surrounds the white drain cover of the shower surface.

sizes in cm

GEBERIT NEMEA SHOWER SURFACE

NEW

Accessibility

ELEGANT AND COST-EFFECTIVE SOLUTION

The Geberit Nemea shower surface combines a pleasant feel with ease of cleaning and an attractive design. It is made of sanitary acrylic, which has proven itself in the bathroom for many years thanks to its resistance to ageing. Even minor scratches can be easily buffed out.

The drain can optionally be covered by an elliptic white disc with elegant chrome edging, under which a comb insert effectively stops hair from entering and clogging the drain.

Geberit Nemea is available in glossy or matt versions in the colour white alpine.

↑ Simple elegance that fits into any bathroom: The Geberit Nemea shower surface is available in nine different sizes and formats.

GEBERIT WALL DRAIN FOR SHOWERS

TAKING THE FLOOR-EVEN SHOWER A STEP FURTHER

The Geberit wall drain shifts the drainage of floor-even showers from the floor to behind the wall. Not only does this look very attractive, it also makes it easier to install a floor-even shower. Both the drinking water and waste water installations are behind the wall and the floor can be tiled throughout. This also makes it possible to install underfloor heating without interruption.

All that remains visible is a small cover on the wall that can be easily removed to clean the comb insert behind. The cover is available in various surface finishes and can also be tiled to match the design of the wall.

1 Discreet and very easy to clean. 2 The wall drain cover can also be tiled to match the bathroom design.

SHOWER TOILETS

Water is indispensable for daily personal hygiene and well-being. It cleans gently and thoroughly. That's why more and more people opt for the natural soothing and beneficial experience of cleaning with water.

A Geberit AquaClean shower toilet ensures cleanliness and well-being and gives you that confident feeling of freshness all day long at the touch of a button.

- ACTUATOR PLATE: Geberit Sigma50.
- SHOWER TOILET: Geberit AquaClean Sela.
- WASHBASIN, FURNITURE, MIRROR: Geberit Xeno².
- SHOWER DRAIN: Geberit wall drain.

GEBERIT AQUACLEAN SHOWER TOILETS

Water is an integral part of daily personal hygiene. It cleans, refreshes and brings a feeling of well-being. With the range of Geberit AquaClean models, from the simple-to-mount toilet enhancement to the complete integrated toilet solution, you can also enjoy this comfort on the toilet. Decide for yourself how many additional pampering functions your shower toilet should offer. Geberit AquaClean, enjoy the feeling of freshness and cleanliness everyday.

GEBERIT AQUACLEAN MERA EXCEPTIONALLY BRILLIANT

FLUSHING SYSTEMS

Aesthetics and functionality in perfect harmony: Geberit offers attractive concealed and exposed solutions for thorough flushing of the WC ceramic appliance. Everyone can therefore find the flushing system that suits their bathroom and own personal preference.

GEBERIT ACTUATOR PLATES

Geberit actuator plates are the defining luxury finishing touch for any bathroom. Combining visual elegance with innovative functions and a range of sumptuous finishes, they are an essential reflection of individual style. It's not just any bathroom, it's your bathroom.

The trend towards individualisation also brings with it increasing demands for design options in the bathroom that are as diverse as possible. These are often nuances that have to be perfectly coordinated. Actuator plates in new, trendy metal colours can make a small yet significant difference here.

GEBERIT ACTUATOR PLATES SIGMA A STRIKING LOOK

**Rectangular, round or touchless elegance.
Uncompromising aesthetics and function.**

The Geberit actuator plates from the Sigma series offer a wide range of designs and surface finishes. Whether with organic round or clear geometric flush buttons, all of the plates impress with high-quality workmanship and easy, convenient operation. Exciting additional functions such as the odour extraction unit behind the actuator plate, the touchless model and the option of designing a bespoke, customer-specific plate.

ODOUR EXTRACTION FRESH AIR FOR EVERYONE

WC
Geberit Smyle.

ODOUR EXTRACTION UNIT WITH ORIENTATION LIGHT

The Geberit DuoFresh module removes unpleasant odours directly from the WC ceramic appliance before they can spread through the bathroom. It extracts the air directly from the WC, cleans it in a ceramic honeycomb filter and then redirects the air into the room free of odour. An integrated orientation light provides discreet lighting for going to the toilet at night. This means you no longer need the bright

bathroom lights and you find it much easier to fall asleep again. Air extraction and light are automatically controlled by a proximity sensor. The Geberit odour extraction unit suits every bathroom style; it can be combined with most Geberit actuator plates of the Sigma series.

Unpleasant odours are removed
right at the source.

ACCESSIBLE

The ceramic honeycomb filter can be easily accessed via the actuator plate.

EFFICIENT AND QUIET

The air is purified by the ceramic honeycomb filter. A quiet fan conveys the purified air back into the room.

LED ORIENTATION LIGHT

An LED orientation light is a further convenience. It is under the actuator plate and shines a discreet, indirect light into the room – simply perfectly-thought-out.

GEBERIT MONOLITH AND MONOLITH PLUS

Geberit Monolith sanitary modules offer new possibilities for bathroom design. With elegant surfaces and surprising functions. For designer bathrooms.

FUNCTIONS FOR GREATER COMFORT

The premium sanitary module Geberit Monolith Plus offers state-of-the-art flush technology for WCs. Flush actuation is triggered by gently pressing the sensor buttons. A discreet orientation light that you can configure in seven different colours according to your taste and mood also shows the way to the toilet at night. An integrated odour extraction unit absorbs odours directly in the WC ceramic appliance and ensures that nothing disturbs the freshness in your bathroom.

ATTRACTIVE SURFACES FOR GREATER DESIGN FLEXIBILITY

The front cover made of safety glass is available in the colours white, black, lava and sand grey. The side cladding in anodised colourless aluminium can be combined with the surfaces white and sand grey and the side cladding in black chrome harmonises with the surface variants lava and black.

ODOUR EXTRACTION INCLUDED
Air is extracted directly from the ceramic pan and released back in a pleasant, fresh state.

SOFT-TOUCH FLUSH ACTUATION
A gentle press is enough to trigger flush actuation on the Geberit Monolith Plus sanitary module.

AN ATTRACTIVE ALTERNATIVE

The Geberit Monolith sanitary module for WCs combines modern flush technology with a stylish design. The dual flush ensures an appropriate and water-saving flush. Exclusive surfaces made of glass and brushed aluminium or black chrome make for attractive highlights in new construction as well as in renovation, for example as a substitute for an old surface-mounted cistern.

MODULES FOR THE WHOLE BATHROOM

Matching sanitary modules for bidets make it possible to create bathrooms with a coherent design. The Geberit Monolith for bidets is equipped with a towel rail.

COLOURS/ MATERIALS

The way that surfaces look and feel has a determining influence on the style and impression of a bathroom's interior. Geberit therefore offers their bathroom furniture, sanitary modules and actuator plates in a variety of different materials and colours. All in the name of achieving the perfect bathroom.
